

## The MVCS Stakeholder Advisory Committee is Open to New Members!

This exciting committee, made up of consumers and former consumers of services at Martha's Vineyard Community Services along with vendors and members of the staff, administration and Board, meets quarterly to open communication with the community, give greater voice to our consumers, and to improve the quality and responsiveness of MVCS services. The committee reviews important issues and makes suggestions about:

- Health and Safety
- Human Rights
- Quality Improvement

Your involvement can help us provide the best services for the island community. If you would like to review the minutes of the last meeting, have questions, or would be interested in exploring membership on the Stakeholder Advisory Committee, please contact Nell Coogan at [ncoogan@mvcommunityservices.com](mailto:ncoogan@mvcommunityservices.com)
